#### WRITING

Typically most students go to school, but there are special occasions when children are taught at home. Home schooling has both disadvantages and advantages.

Let's start with advantages. At first, home schooling is very comfortable: the child does not need to spend time on the way to and from school.

Secondly, I believe that the school children spend much more energy and gets tired very quickly, unlike home schooling.

But it has also drawbacks. Firstly, in school children have more knowledge than ~~the~~ <sup>being</sup> ~~at~~ home. Secondly, in school children communicate with other people a lot, that also fall it is important in society. Thirdly, learning in school, children have the opportunity to engage in various hobby groups, for example drama circles. In conclusion, I want to say that I believe that it is better to study in school, but there are special occasions when children are forced to study at home.
